

**SMULDERS PROJECTS B.V  
AND  
SIF GROUP BV**

Sif Group

**Sif**

**Smulders Projects** is the world leading manufacturer of offshore monopile foundations for windturbines with production facilities in the Netherlands, Belgium and Poland.

Smulders Projects is part of the Smulders Groep which also produces steel constructions, high rise buildings, bridges, tubular towers, etc.

**Sif Group** is an independent company located in Roermond in the south of the Netherlands.

Over the last decades Sif Group has specialized in the manufacturing of tubular structures for markets as: Offshore Oil and Gas, Offshore Wind farm foundations etc.

Sif Group has broad experience in bending, welding, heat treatment, non-destructive and destructive testing of various types of steel use markets.
